Coffee Ministry?

We have been attending International Friendship Church for the last two years here in Costa Rica (Spanish speaking). There is a huge need of a ministry to serve married couples.

In our small church several couples have approached us for counseling, encouraging us to start a ministry to serve them and to teach them about Christian principles for marriages, parenting, and building strong families in the Lord.

We have built a team and are meeting once a week to

seek the Lord in order to know what would be the best way to strengthen the marriages from our church and outside.

Well, we just started a ministry called "CAFÉ" which is the word in Spanish for coffee. The acronym means "committed to reach families for their growth".

Please pray that this effort in our local church brings glory to God through helping families both inside and outside our church, to be more Christ-centered.

Wedding in Costa Rica

Rosalia and I have been teaching a prenuptial course to a sweet couple of Costa Ricans for the last three months.

Angelo is a pastor's grandson and Daniela is a pastor's daughter.

What a privilege that both families asked us to spend time with this young couple to share Biblical principles and life experiences.

What a blessing as we attended their civil wedding at the beautiful Pacific Coast in Costa Rica. I (Mauricio), brought a short Bible message during this special activity.

Angelo and Daniela's wedding

Guatemala STS Workshops

We are partnering with The God's Story Project and CAM International to conduct five STS (Simply The Story) workshops in Guatemala.

The goal is to meet the need for effective communication of the Gospel to the Mayan people groups, both literate and nonliterate (6 languages).

MAF missionary Regina Manley already conducted the first workshop in January, which is impacting missionaries and Bible students. She is actually following up the results and multiplication processes.

Deputation Trip to Florida: April

*"There is no
crisis surprising
God...*

*...He is the
same yesterday,
today and
forever...*

During our 15+ years of ministry, most of our trips involve Bible teaching, preaching, Christian service and Gospel sharing.

There are also trips where we are more focused in sharing our vision, passion, and ministry with others.

On these trips we want to challenge others to make our vision, passion and ministry theirs.

Many Christians dream all

their lives of sometime in the future serving the Lord... that is a great desire and thought, but there are other ways to serve while staying in your home country:

1. Pray for missionaries
2. Share about missionary work using email, mail, coffee meetings, church presentations
3. Give to missions and challenge others to do the same

We visited Florida in April to share our ministry with churches, groups, and individuals.

We want to invite you to partner with us in the challenge of using education and technology to help grow the Church.

Will you pray and ask the Lord how you might be able to help support our ministry financially? Thank you.
